Roll Top Safes

Travel safes fitted with the ever-popular Roller Top are ideal for the transportation of cash and offer extreme ease of use. The operator need only place loose or bagged items into the roller top, turn the roller handle and the contents will drop into the safe compartment below.

Product Code	Description	L	W	H	Kg

00.60.33	Heavy Duty Roll Top (255 x 125 opening) direct vehicle mounting	410	330	615	28

- All dimensions are in mm (L & W dimensions = base plate 'footprint' - actual safe is approx 5% smaller)
  L = length W = width H = height Kg = weight

Collect models require a key to enable the safe to be locked into the vehicle. **Commercial & Guardian** models auto lock upon presentation to the base plate. The **Heavy Duty** model is designed for direct mounting to the vehicle floor.

Models that are offered with a 2nd lock option give enhanced security where the 1st lock is used to remove the safe & contents from the vehicle, and then the 2nd removes the contents from the safe.
All locks are registered to Checkmate Devices Ltd and each is supplied with 2 keys. Keyed alike and master key systems are available upon request.

Base plates are anchored to the vehicle floor using a fixing kit (supplied).
